

# Blankets

## Make an impression with **printcom**<sup>®</sup> blankets

### Use our expertise to lengthen blanket life and improve print quality

manroland's advanced testing process ensures **printcom** blankets deliver on promises of extended durability and the highest quality print. Our enhanced compressible layers minimize gauge loss, provide superior rebound properties and excellent smash resistance, extending the lifetime of your blankets.

To ensure you further maximize the effectiveness of your **printcom** blanket, manroland recommends Folex Folabase underpackings. Folex's revolutionary surface increases blanket stability, resulting in sharper dots throughout a broader range of paper thickness.

During the months of January and February, manroland is pleased to offer free Folabase blanket underpacking for your press when you try a set of **printcom** blankets. Additionally, our print process specialist will provide detailed training to your staff on techniques for maintaining and extending the life of your blankets and blanket underpackings. Call us today to take advantage of this great deal! ■■
