

# plate cleaner 210A

For Higher Quality In Offset Printing

Print quality and profitability are directly related to the choice system components.

## Application

The printcom plate cleaner 210A is a non-alkaline, abrasive-free cleaning and plate preservation agent for negative and positive-working conventional and CTP plates, both new and stored.

It quickly and thoroughly removes paper dust and oxidation and possesses superior scratch removal qualities.

printcom plate cleaner 210A reliably preserves plates both on-press overnight and off-press in storage.

The pH-value of printcom plate cleaner 210A lies at 4.5.

## Advantages

- Quick and thorough removal of paper dust and oxidation
- Superior scratch removal
- Reliable preservation of the printing plate on and off-press

manroland's Research and Development departments continually focus on achieving optimum synergy between the system components, printing plate and prepress chemicals. Thus providing the ultimate conditions to maximise the workflow, increase productivity and enhance the expertise of workmanship.

printcom stands for "print competence" and represents manroland's offering of process-compliant system components for the printing industry. Customer satisfaction is our top priority, and the printcom team is here to serve you.

#### Technical Data

Composition	solution
Color	milky-white
pH-Value	4.5
Specific Gravity at 20°C	1.013

#### Directions for Use

Use printcom plate cleaner 210A on a clean sponge, cotton wipe or cheese cloth to thoroughly clean the printing plate. Rinse with fountain solution.

When using printcom plate cleaner 210A, please observe the safety instructions on the product label and material safety datasheet as well as the relevant regulations for the prevention of industrial accidents and other applicable rules!

#### Packaging Units

All packaging units are non-returnable.

Bottles	1 quart
---------	---------

#### Transport and Storage

cool and dry, protected against direct sunlight and freezing

#### Labeling

Health	1
Flammability	2
Reactivity	0
Protection	B
