

MAINTENANCE & SERVICE CONTRACTS

# Maintenance in Accordance with the Service Manual

**ps** **printservices**<sup>®</sup>  
a trademark of manroland

## For high production reliability

### **Maintenance for a long press life.**

Our maintenance concept includes many tasks that must be carried out to ensure that your printing system has a long useful life.

The maintenance includes attention to lubrication points, oil change, and replacement and adjustment of wear parts by trained manroland technicians using special tools if necessary.

The budget for scheduled maintenance work can be time-defined or based on fixed cost rates for the work to be done. Maintenance can be carried out at the end of an audit or a repair or in the prescribed maintenance cycles.

An individual arrangement for attending to the maintenance work on your printing system can be agreed with you in the scope of a service contract. ■■

## Advantages

- Maintenance work can be budgeted for
- Specially trained manroland technicians for the specific assemblies
- Special tools and equipment available when needed
- Greater process reliability and preservation of press productivity
- Regular maintenance lengthens the useful life of the printing system

## Price

Fixed price per press or printing system; travel and other costs included in the service contract
